

Bridging the Global-Local Divide in Academia: Best Practices and Models

Friday, February 12, 2016
University of Maryland Baltimore SMC Campus Center
621 W. Lombard St., Baltimore, Maryland

Participant Biographies

Barbara Astle, PhD, RN is Associate Professor of Nursing at Trinity Western University and Director for the Centre of Equity and Global Engagement. Her research focuses on global health educational partnerships, equity, global health competencies, and global citizenship. Current research projects include: global partnering relationships with undergraduate nursing students involved in international clinical placements; global health competencies for nursing students and faculty engaged in international work and global missions; interprofessional host perspectives on global health competencies; and implementing global citizenship concepts within the nursing curriculum. She was Past Chair for the Canadian Society for International Health (CSIH, 2009-2012). Email: barbara.astle@twu.ca.

Fanta Aw, PhD is President and Chair of the Board of Directors of NAFSA: Association of International Educators, the largest international education association with over 10,000 members. Dr. Aw is also Assistant Vice President of Campus Life and Hurst Senior Professorial Lecturer in the School of International Service at American University in Washington, DC. Dr. Aw advises American University senior leadership on campus internationalization, diversity and inclusion. With over 20 years of experience in the field of international education and higher education, she is a frequent international presenter and speaker. Dr. Aw holds a PhD in sociology from American University. Her areas of specialization include transnational migration, international education, and intercultural communication. Dr Aw is originally from Mali, West Africa. As a global nomad she has lived in several African countries and the US, and has visited over 60 countries. Email: fanta@american.edu

Tim Brewer, MD is Vice Provost for Interdisciplinary and Cross-campus Affairs in the Chancellor's Office at University of California Los Angeles. He is responsible for working with Senior Administration, Deans, Faculty, Centers, and Departments to identify, implement, and guide interdisciplinary and cross campus education, research, and service programs. Dr. Brewer is Professor of Medicine and a member of the Division of Infectious Diseases at the David Geffen School of Medicine. He previously served as the Director of Global Health Programs at McGill University Medical School, and has published extensively on using analytic methods to optimize the population-based control of infectious diseases, particularly tuberculosis and human immunodeficiency virus (HIV). Dr. Brewer has served on advisory boards and review panels for numerous international and national organizations including the World Health Organization, the National Institutes of Health, the US Centers for Disease Control and Prevention and the Canadian Institutes of Health Research among others, and currently serves as the Chair of the Board of Directors for the Consortium of Universities for Global Health. Dr. Brewer received his M.D. from New York Medical College and an M.P.H. from the Harvard School of Public Health. He has extensive experience developing and overseeing training, education and service programs locally as well as in low- and middle-income countries around the world, and has received multiple teaching awards for his efforts. Email: tbrewer@conet.ucla.edu

Gregory Carey, PhD is Assistant Professor in the Department of Microbiology and Immunology and Director of Student Summer Research and Community Outreach at University of Maryland School of Medicine. Dr. Carey is responsible for medical student research activities which include research electives, summer and year-off research training for enrichment. He directs and oversees summer research programs for undergraduates and health-profession students. In his outreach roles within the Office of Student Research and as a Co-chair on the President's Outreach Council, Dr. Carey provides and facilitates research, mentoring and STEM educational opportunities for students at all levels and from broad backgrounds, on and off the UMB campus. Dr. Carey is also an NIH-funded investigator focused on how lymphomas arise and the biochemical switches that determine life and death decisions in these and other cancers. He is active in graduate-medical education. Dr. Carey is engaged in community health in local and global settings and he is focused on addressing global disparities and the emerging and rising rates of cancer, metabolic- and cardiovascular-disease in these communities. He is a strong advocate of local and global empowerment and interprofessional collaborations to address complex community health issues. Email: gcarey@som.umaryland.edu

Rebecca Dillingham, MD, MPH is Harrison Distinguished Teaching Associate Professor of Medicine, Director of the University of Virginia's Center for Global Health and co-founder of UVA's Global Health Leadership Track, a program that provides global health training for residents from eight clinical departments. Dr. Dillingham has led the development of global health training across the schools at UVA through the UVA Framework Program in Global Health, an initiative supported by the Fogarty International Center. In addition to sustained funding through the Framework program, Dr. Dillingham leads three other NIH-funded international research training grants. After receiving her undergraduate degree, Dr. Dillingham traveled to the Ivory Coast to work on HIV prevention for two years prior to entering medical school. She trained in internal medicine and infectious diseases at UVA. Dr. Dillingham has been awarded numerous teaching and clinical service awards in recognition of her skill as an educator as well as her humanistic approach to medicine. Her major clinical activity is the care of adult patients infected with HIV. Dr. Dillingham's funded research projects include the use of cell phone-based technology to help vulnerable populations improve engagement in HIV care and the evaluation of the impact of changes in water and sanitation on the incidence of water-borne disease. This research takes place in Virginia and South Africa. Email: rd8v@virginia.edu

Bradley Dreifuss, MD is Assistant Professor of Emergency Medicine (EM) and Public Health and serves as Director of Rural and Global EM Program at University of Arizona. In this role, he is developing a multidisciplinary Rural/Global EM curriculum, mentorship and research programs for EM faculty, residents and students. He works to create alignment between the health sciences and UA's main campus in Global Health. Since 2009, he's worked closely with and sits on the Executive Board of Global Emergency Care Collaborative, a 501c3, developing EM training in Uganda. Dr. Dreifuss studied in Nepal during college, leading him to pursue Medicine and Public Health training from Oregon Health and Science University, where rotated in Sri Lanka and developed a keen interest in Emergency Care systems in resource-limited settings. After completing clinical EM training at the University of Connecticut he pursued an International Emergency Medicine fellowship at University of Utah. He has worked extensively in Rural Emergency Departments in Kentucky, Utah, and Wyoming. Dr. Dreifuss' academic interests include: capacity development of sustainable and scalable emergency care (education and service delivery) in Global and Rural contexts, injury surveillance/prevention, ED-based HIV screening, clinical operations and outcomes research, and development of university-based programs Global/Rural programs. Email: bdreifuss@aemrc.arizona.edu

Lori Edwards, DrPh, RN is Assistant Professor at the University of Maryland School of Nursing in the Department of Family Community Health, Director of Global Occupational Health in the Office of Global Health, and Deputy Director of the UMB Center for Community-Based Education and Learning. She is certified as a clinical specialist in Public Health Nursing. For the past 25 years, Dr. Edwards has worked in local Baltimore communities and developed and directed numerous community based intervention projects. She also works in global health and has developed programs internationally. Dr. Edwards conducts community based participatory research and recently focused on the promotion of occupational health and safety with Vietnamese nail salon workers. Prior to joining the University of Maryland, she directed the Community Outreach Program and the Returned Peace Corps Fellows Program at Johns Hopkins University School of Nursing for 20 years. She recently completed a Faculty Fellowship in Service-Learning and has developed service-learning courses and practicum experiences locally and internationally. She serves as President of the Board for a local community agency, the Julie Community Center. Dr. Edwards received her BSN from University of Maryland, her MPH and DrPH from Johns Hopkins Bloomberg School of Public Health. Dr. Edwards has received numerous awards in her career. Most recently in 2014, she received the National Outstanding Faculty Award from the American Association of Community Health Nurse Educators. Email: edwards@son.umaryland.edu

Samer El-Kamary, MBChB, MS, MPH is a tenured Associate Professor at the University of Maryland School of Medicine, Department of Epidemiology and Public Health, the Department of Pediatrics and the Center for Vaccine Development. Dr. El-Kamary is American Board of Pediatrics certified in Pediatrics and has a clinical practice at Mercy Medical Center. Dr. El-Kamary is a clinician researcher who has conducted research on the epidemiology of infectious diseases, particularly hepatitis infections, with a focus on hepatitis C virus (HCV) in Egypt. He has focused on the incidence, prevalence and risk factors of HCV in pregnant women and their children, and the immune responses that affect vertical transmission and persistence of infection. He has conducted several vaccine and therapeutic clinical trials in the US and Egypt, and he has published more than 50 peer reviewed journal articles and two book chapters. He has been awarded the University of Maryland School of Medicine Department of Epidemiology and Public Health's Faculty Mentor Award, the Faculty Teaching Award and the Medical Student Teaching Award. Email: selkamar@epi.umaryland.edu

Jessica Evert, MD is Executive Director of Child Family Health International. Dr. Evert straddles international education and the medical profession. She served as CFHI Medical Director from 2008 to 2013 when she was appointed to the Executive Director role. Dr. Evert is Faculty in the Department of Family and Community Medicine at the University of California, San Francisco, where she instructs in Global Health and community-based underserved care and helped develop, as well as completed the Global Health Clinical Scholars residency track. She is a graduate of the Ohio State University College of Medicine and is a longtime advocate for health-related international education quality and ethical standards. Dr. Evert is author and editor of multiple chapters, articles and books in global health with a focus on education, ethics, and asset-based engagement, including the seminal texts: 1) *Developing Global Health Programming: A Guidebook for Medical and Professional Schools*, 2nd Ed, and 2) *Global Health Training in Graduate Medical Education*, 2nd Ed. She helped develop the Forum on Education Abroad's Standards for Health-Related Undergraduate Programs. Dr. Evert is a recipient of Global Health Education Consortium's prestigious Christopher Krogh Award for her dedication to underserved populations at home and abroad. Email: jevert@cfhi.org

Caren Frost, PhD, MPH is Research Professor and Director of Global Social Work at University of Utah College of Social Work. Her research and teaching center on improving health and overcoming barriers to health care, especially for women, refugees, and underserved international populations. She currently serves on the state's Refugee Reproductive Health Committee, is part of the editorial board for the *Journal of Women's Health & Gynecology*, and co-chairs the University of Utah's Institutional Review Board, among many other commitments. After volunteering with the U.S. Peace Corps in Morocco, Dr. Frost earned her master's degree in public health from Columbia University, and her PhD in medical and cultural anthropology from the University of Utah. Email: caren.frost@socwk.utah.edu

Leslie Glickman, PT, PhD is recently retired as Assistant Professor and core faculty in the University of Maryland School of Medicine, Department of Physical Therapy and Rehabilitation Science. In addition to teaching the professionalism courses in the entry-DPT program, she had active service and scholarly agendas. Her population focus for these areas was underserved, less resourced communities locally, regionally, and internationally. She continues to investigate student outcomes during experiences with these populations, particularly related to the development of cultural competency skills and interprofessionalism. Collaborations with noteworthy professional organizations include the APTA, WCPT, and HVO (Health Volunteers Overseas). Dr. Glickman conducted research in Malawi as a faculty grantee of CGEI's global health interprofessional program (2014, 2015) and was an active member of the University's Global Health Interprofessional Council (GHIC), which promotes faculty and student global interprofessional education and activities. She has published peer-reviewed journal articles related to her international experiences and has presented programs and posters throughout the world on these topics. Email: lblickman@verizon.net

Leigh Goodmark, JD is Professor of Law at the University of Maryland Carey School of Law and 2015 UMB CBEL Faculty Fellow. Professor Goodmark directs the Gender Violence Clinic, a clinic providing direct representation in matters involving intimate partner abuse, sexual assault, trafficking, and other cases involving gender violence. Professor Goodmark's scholarship focuses on domestic violence. She is the co-editor of *Comparative Perspectives on Gender Violence: Lessons from Efforts Worldwide* (Oxford 2015) and the author of *A Troubled Marriage: Domestic Violence and the Legal System* (New York University 2012), which was named a CHOICE Outstanding Academic Title of 2012. From 2003 to 2014, Professor Goodmark was on the faculty at the University of Baltimore School of Law, where she served as Director of Clinical Education and Co-director of the Center on Applied Feminism. From 2000 to 2003, she was the Director of the Children and Domestic Violence Project at the American Bar Association Center on Children and the Law. Before joining the Center on Children and the Law, she represented battered women and children in the District of Columbia in custody, visitation, child support, restraining order, and other civil matters. Professor Goodmark is a graduate of Yale University and Stanford Law School. Email: lgoodmark@law.umaryland.edu

Jon Mark Hirshon, MD, PhD, MPH, FACEP, FAAEM, FACPM is Professor in the Department of Emergency Medicine and in the Department of Epidemiology and Public Health at the University of Maryland School of Medicine. He is dedicated to improving access to high quality acute care in the United States and in every country across the globe. He is the former director of the Charles McC. Mathias, Jr. National Study Center for Trauma and EMS and is currently the Senior Vice-Chairman of the University of Maryland, Baltimore's Institutional Review Board. Dr. Hirshon is a federally funded researcher and teacher, and as part of his international work through a National Institutes of Health Fogarty International Center grant, he and his dedicated teams have trained approximately 900 physicians from Egypt and multiple other countries in the Middle East in acute care related topics including the clinical care of trauma patients, disaster preparedness and response, and injury research methods. Email: jhirshon@umaryland.edu

Diana-Lynne Hsu is currently a dual degree Juris Doctor and Master of Public Health candidate at the University of Maryland Francis King Carey School of Law and Johns Hopkins Bloomberg School of Public Health in Baltimore, Maryland. She is a candidate for the Health Law Certificate at UM Carey Law and a candidate for a Global Health Certificate from the Bloomberg School of Public Health. She has completed her coursework for her MPH and fulfilled her capstone project for her concentration in Health Leadership and Management with a paper on the public health ramifications of Medicare fraud and abuse. She is currently completing her advanced writing certification for law school on the legal effects of clinical decision support tools in electronic health records. Recently, she represented the UM Carey School of Law on an interdisciplinary team that won the “Creativity Prize” in the Institute of Medicine’s 2015 D.C. Public Health Challenge. Diana-Lynne is a graduate of Barnard College in New York with dual degrees in the Biological Sciences and Political Science. Email: diahsu@umaryland.edu

Linda Kaljee, PhD is Senior Research Investigator at the Global Health Initiative at the Henry Ford Health System. Over the past 25 years, Dr. Kaljee has been engaged in community-based research among diverse populations in the United States and internationally. Dr. Kaljee’s areas of expertise include use of mixed methods, survey development and adaptation, and health intervention development, implementation, and evaluation. Beginning in the early 1990s, Dr. Kaljee worked as a member of an interdisciplinary team in Baltimore on the development and evaluation of the “Focus on Youth” (FOY) sexual and reproductive health program for adolescents, which is now a part of CDC’s Dissemination of Evidence-Based Interventions (DEBI) program. Internationally, Dr. Kaljee has worked on the adaptation of FOY in Vietnam, China, and The Bahamas. Dr. Kaljee has also been engaged in research focused on the psychosocial well-being of orphaned and vulnerable children. In addition to her work on sexual and reproductive health, Dr. Kaljee has worked in healthcare utilization and socio-behavioral research in conjunction with vaccine introduction and vaccine trials in the United States, Vietnam, India, Thailand, Zanzibar, Colombia, Nepal, and Haiti. Dr. Kaljee is also involved with development and implementation of community-based research training programs. Email: lkaljee@med.wayne.edu

Susan Kim, JD, MPH, MBA is Deputy Director of the O’Neill Institute for National and Global Health Law at Georgetown University. Trained in law, public health, and business, her current project portfolio includes oversight and engagement in the institute’s Bill & Melinda Gates Foundation funded grants in the area of infectious disease control. Her additional research interests include food and drug law and public-private partnerships in health. Susan has served in a number of different capacities at the O’Neill Institute, including Project Director, Project Manager, and Manager of Grants and Communications. In the latter role, she managed the institute’s development activities, which included strategic planning, grant development and writing, and marketing and branding. She started at the O’Neill Institute as a Law Fellow in 2008, where she worked on a broad range of projects in health law and policy – emergency (pandemic) preparedness, food safety regulation, global health governance, infectious disease control, and implementation of the World Health Organization’s revised International Health Regulations. Susan holds a law degree from the University of Connecticut, a Master of Public Health in health management and policy from the University of Michigan School of Public Health, and a Master of Business Administration from the McDonough School of Business at Georgetown University. Email: sck3@law.georgetown.edu

Mei Ching Lee, PhD, RN, CHPN is Assistant Professor at University of Maryland School of Nursing. Prior to joining the faculty, Dr. Lee was a Post-Doctoral Fellow in Bioethics at Johns Hopkins University, and served as an intern in the Ethics Committee at the Johns Hopkins Hospital. She had ten years of clinical experience in the Critical Coronary Care unit at the Johns Hopkins Hospital. Her research interests are in culturally competent care and palliative and end of life care. She has conducted mixed methods research studies of advance care planning and end of life care focusing on minority populations. Dr. Lee received her BSN from Monash University, MS from Touro University and her PhD from University of Maryland Baltimore. Email: lee@son.umaryland.edu

Jane Lipscomb, PhD, RN, FAAN is Professor at University of Maryland Schools of Nursing and Medicine and Director of the UMB Center for Community-Based Engagement and Learning (CBEL). She has conducted community-based participatory action research on the prevention of occupational injuries and illness in the health care and social service workplace for over twenty years, with a focus on workplace violence prevention. Prior to joining the faculty, Dr. Lipscomb spent three years as a senior scientist in the Office of the Director of the National Institute for Occupational Safety and Health (NIOSH) and five years at the University of California, San Francisco (UCSF) School of Nursing, as Assistant Professor and Director of the graduate program in Occupational Health Nursing. Dr. Lipscomb received her BSN from Boston College, her MS in

occupational health from Boston University/Harvard School of Public Health and PhD in Epidemiology from the University of California, Berkeley. Email: lipscomb@son.umaryland.edu

Keith Martin, MD is a physician who, since Fall 2012, has served as the founding Executive Director of the Consortium of Universities for Global Health (CUGH) based in Washington, DC. The Consortium is a rapidly growing organization of over 130 academic institutions from around the world. It harnesses the capabilities of these institutions across research, education, advocacy and service to address global challenges. It is particularly focused on improving health outcomes for the global poor and strengthening academic global health programs. Dr. Martin served as a Member of Parliament in Canada's House of Commons from 1993-2001 representing a riding on Vancouver Island. During that time he held shadow ministerial portfolios in foreign affairs, international development, and health. He also served as Canada's Parliamentary Secretary for Defense. In 2004, he was appointed to the Queen's Privy Council for Canada. His main areas of focus are in global health, foreign policy, security, international development, conservation and the environment. He is particularly interested in strengthening human resources capabilities and scaling up initiatives in low-income settings that improve environmental sustainability and human security. Diplomatic missions have taken Dr. Martin to areas in crisis, including Sudan, Niger, Sierra Leone, Colombia, and the Middle East. He served as a physician on the Mozambique border during that country's civil war. Email: kmartin@cugh.org

Marie McLeod, RN, MPH is Director of the Office of Global Health and HIV for the Peace Corps. She leads the agency's participation in the U.S. President's Emergency Plan for AIDS Relief (PEPFAR), promoting effective community-level responses to health and HIV by Peace Corps Volunteers in over 60 countries worldwide. As the Peace Corps' designated Deputy Principal to the Office of the Global AIDS Coordinator, she also contributes to overall interagency policy-setting and the direction of PEPFAR. Prior to joining the Peace Corps, Marie was the Director of Country Support at the State Department's Office of the Global AIDS Coordinator where she managed coordination and communications with PEPFAR's field teams, and beforehand she spent four years in South Africa as the Deputy Director of USAID/South Africa's Health Office. Marie also lived in Mexico for eleven years, working first with Pathfinder International, a non-governmental organization receiving USAID funding for family planning programs, and then with USAID/Mexico, where she led the family planning program and was later tasked to launch a new tuberculosis and infectious diseases program. Marie is also a Registered Nurse with a Master's Degree in Public Health from Emory University. Email: mmcleod@peacecorps.gov

Lila Meadows, JD is Assistant Director of Second Chance for Women, a non-profit focusing on advocacy for incarcerated women serving long-term sentences at the Maryland Correctional Institution for Women and Patuxent Institution. Their organization supports these women by providing or connecting women with legal assistance in post-conviction and parole proceedings, as well as by providing programming related to domestic violence. Prior to law school, Lila earned her masters of health science in health policy from the Johns Hopkins Bloomberg School of Public Health and has worked in various capacities with clients who have experienced trauma and are living with mental illness in South Africa, Malawi, and Egypt. Email: lmeadows2@gmail.com

Marik Moen, MPH, MSN, RN is Assistant Professor in the Office of Global Health at University of Maryland School of Nursing. She has served as nurse, educator, and program developer/implementer with Johns Hopkins University and University of Maryland Baltimore for 13 years in these focus areas: acute care medicine and public/community health with focus on HIV/Infectious Diseases; global and community health; and transitional care in Baltimore, Rwanda, Haiti. She has authored multiple presentations and several publications on global health nursing and HIV-related topics. Currently, she teaches a community health clinical course in Baltimore's Harlem Park/Sandtown Winchester neighborhood and educates students on HIV and social justice with an interprofessional focus. Email: mmoen@son.umaryland.edu

Jody Olsen, PhD, MSW is Co-director of the University of Maryland Baltimore Center for Global Education Initiatives, Co-chair of the UMB Global Health Interprofessional Council, and Visiting Professor at the University of Maryland Baltimore School of Social Work. She teaches international social work, global social policy, issues in global women and children's health and is strengthening international opportunities for students and faculty at the school. She is currently a member of the Council on Global Learning, Research and Practice of CSWE and on the Boards for Kalamazoo College, InterMedia, and Health Volunteers Overseas (HVO). Before joining the faculty, she was Acting Director and Deputy Director of U.S. Peace Corps, 2001-2009. She began as a Peace Corps volunteer in Tunisia and returned to Peace Corps three other times before becoming Deputy Director: Country Director in Togo, Regional Director for North Africa, the Near East, Asia, and the Pacific, and Agency Chief of Staff. Between her Peace Corps work, she was Senior Vice President of AED, a large

international development organization, Executive Director of CIES, the organization managing the Fulbright Senior Scholar Program, and Vice President at YFU, a student exchange organization. Dr. Olsen has traveled to over 90 countries for work and has given over 1,000 speeches nationally and internationally. She received both her MSW and PhD from the University of Maryland and has an honorary doctorate from Michigan Technological University.

Email: jolsen@ssw.umaryland.edu

Rachel Parran, MS, BSN received her Master's degree in Community and Public Health Nursing from the School of Nursing in 2014 and is currently pursuing her PhD in Nursing at the University of Maryland Baltimore. Her research interests include maternal and child health outcomes, with a specific focus on breastfeeding promotion and support for low income women. Prior to beginning her PhD, Rachael worked as a medical case manager for Baltimore City Department of Social Services and as a Labor and Delivery Nurse at St. Agnes Hospital. In addition to pursuing her PhD, Rachael works as a Graduate Research Assistant for UMB's Center for Community Based Engagement and Learning and also serves as a board member on the Maryland WIC Advisory Council. Email: rachael.parran@umaryland.edu

Chris Plowe, MD, MPH, FASTMH is Professor of Medicine, of Microbiology and Immunology, and of Epidemiology and Public Health, Founding Director of the Institute for Global Health and Director of the Division of Malaria Research at the University of Maryland, Baltimore School of Medicine. Born and raised in South Dakota, Dr. Plowe earned a BA in Philosophy at Cornell University and an MD at Cornell University Medical College, where he learned parasitology from tropical medicine icon Benjamin H. Kean, doing field work in Indonesia and Kenya. He completed his internship and residency and served as chief resident in internal medicine at St. Luke's Hospital/Columbia College of Physicians and Surgeons, and earned an MPH in Tropical Medicine at Columbia University School of Public Health. He was a clinical and research fellow in the NIH Laboratory of Malaria Research and a clinical infectious diseases fellow at Johns Hopkins. Dr. Plowe leads a clinical translational malaria research program, with molecular parasitology and clinical vaccinology facilities in Baltimore and field sites in Mali, Malawi and Myanmar. His work encompasses molecular and genomic epidemiology, molecular diagnosis, pathogenesis, immunology, international research ethics, HIV-malaria interactions, and clinical trials of drugs and vaccines. Dr. Plowe has also had a long-time commitment to training scientists and building research capacity in tropical countries.

Alexander Plum, MPH, CHES is Senior Program Coordinator at the Global Health Initiative of the Henry Ford Health System. Mr. Plum is responsible for leading Henry Ford Health System's global healthcare delivery "reverse-innovation" portfolio. Alex identifies and adapts promising solutions from the field of global health and partners with non-profits, universities, faith communities, and other health care systems in Detroit and regionally to implement and evaluate these "global-to-local" interventions. Currently, he is Principal Investigator on a mHealth intervention to promote care-seeking on behalf of homeless, LGBTQ youth, and he is Co-PI on an affiliated research study examining social support and mental health outcomes among the same population. He is also an investigator on global studies and interventions to reduce antimicrobial resistance (Micronesia, Nepal, India, and Detroit), promote vaccines (Haiti and Detroit), and research the intersection of gender, religion, and health outcomes (Kenya, Haiti, Atlanta, and Detroit). Alex received his Master of Public Health from Emory University's Rollins School of Public Health, which honored him as its 2015 Humanitarian Award recipient. He was a Peace Corps Volunteer in the Federated States of Micronesia from 2008-2011.

Email: APlum2@hfhs.org

Isabel Rambob, DDS is Clinical Assistant Professor at University of Maryland School of Dentistry in the Department of General Dentistry. She is also a guest lecturer at New York University College of Dentistry and Howard University College of Dentistry. Dr. Rambob practices as a general dentist – now for almost 20 years, lectures nationally and internationally, and is extensively engaged in numerous community-based activities. Her main interests are: interprofessional education and collaborative practices, oral health in medically compromised patients and cultural factors in patient management. She received her Doctor of Dental Surgery degree from the State University of Feira de Santana, Brazil. She completed a one-year program in Advanced Education in Comprehensive Dentistry at New York University College of Dentistry and a one-year residency program in Advanced Education in General Dentistry at Howard University College of Dentistry. Dr. Rambob served as a dental provider at the HIV+ clinic and a clinical instructor at the special needs clinic at University of Maryland School of Dentistry from 2009-2012. Additionally, she was Dental Director at National Minority AIDS Education and Training Center from 2009-2010, and Dental Director at Health Care for the Homeless Maryland from 2010-2011.

Email: irambob@umaryland.edu

Cristina Redko, PhD is Associate Professor of Community Health-Center for Global Health and BSOM Associate Professor of Emergency Medicine at Wright State University School of Medicine. She serves as the director for the global health concentration in the Master of Public Health Program where she teaches global health and global health systems. Dr. Redko's current research interests intersect the areas of global health, global mental health (giving special attention to resilience factors) and refugee research. She has conducted research in the US, Brazil and Canada and topics have included investigating the lived experience of people suffering from mental illnesses, substance abuse and cancer, and those who have suffered from injuries in the workplace. Dr. Redko holds a PhD in medical anthropology from McGill University and a M.Sc. in clinical epidemiology from McMaster University, both in Canada. During her post-doctoral work in health services research at the Center for Addiction and Mental Health in Toronto, she also completed clinical training in brief therapy at the Hincks-Dellcrest Institute. She earned an M.A. and a B.A. from Universidade de São Paulo, Brazil. Email: cristina.redko@wright.edu

Virginia Rowthorn, JD, LL.M. is Co-director of University of Maryland Baltimore (UMB) Center for Global Education Initiatives and Co-chair of the UMB Global Health Interprofessional Council. She is also Managing Director of the Law & Health Care Program and Director of the Health Law Externship Program at University of Maryland Carey School of Law. She brings together global health faculty from around the country to discuss current issues in interprofessional global health and global/local engagement strategies. She has written about global health competencies, service learning, linking global and local programs and other health-related topics. Prior to joining UM Carey Law in 2006, she was an attorney in the Legislative Division of the Office of General Counsel at the U.S. Department of Health and Human Services and Associate at the law firm of DLA Piper. In addition, Rowthorn spent several years as a Legislative Assistant for the Senate Veterans Affairs Committee and two years as a health educator in the Marshall Islands as a Peace Corps volunteer. Rowthorn is an Honors graduate of the UM Carey School Law and received her LL.M. in Global Health Law at Georgetown Law Center. Email: vrowthorn@law.umaryland.edu

Sharon Rudy, PhD, Board Certified Coach and a Board Certified Counselor, is Program Director for the Global Health Fellows Program (GHFP) II at the Public Health Institute (PHI). GHFP-II is a \$200 million grant from the federal government designed to support human capacity needs inside the federal government and to build the next generation of global health professionals. In her previous role as Senior Faculty at Johns Hopkins University Bloomberg School of Public Health, Dr. Rudy spent almost a decade working in Anglophone Africa designing, implementing and evaluating national behavior change communication programs and client-provider interaction interventions. She has also worked in the Middle East, Africa, and Asia implementing performance improvement and training programs through IntraHealth, then based at the Medical School of the University of North Carolina, Chapel Hill. Dr. Rudy holds a PhD in Counseling and Organizational Consulting and is a published author. Email: srudy@ghfp.net

Nadia Sam-Agudu, MD is the Technical Advisor for Pediatric HIV at the Institute of Human Virology Nigeria. She is an Assistant Professor of Pediatrics (Immunology) and faculty of the Institute of Human Virology at the University of Maryland School of Medicine. She completed her medical training at Mayo Medical School, Minnesota. Her general pediatrics and infectious diseases training were at the University of Minnesota, where she was significantly involved in Global Health Education and malaria research. Dr. Sam-Agudu's career has focused on diseases of global and public health importance among African children, notably in Ghana, Uganda, and Nigeria. Her current research interests are in the prevention of HIV in children and interventions to improve long-term outcomes of HIV treatment in children and adolescents. Email: nsam-agudu@som.umaryland.edu

Michael Seipp is Executive Director of the Baltimore Southwest Partnership, a coalition of neighborhood associations, community members, and anchor institutions in the southwest Baltimore neighborhoods of Barre Circle, Franklin Square, Hollins Roundhouse, Mount Clare, Pigtown, Poppleton, and Union Square. Beginning as a small group of concerned residents organizing around the over-concentration of drug treatment facilities in the area organizing community forums to address issues of disinvestment, disenfranchisement, and lack of a community voice, the Southwest Partnership has grown to include neighborhood associations from each of the seven neighborhoods, community residents and stakeholders who want to make deliberate, positive changes in the Southwest Partnership area. Mr. Seipp has been working in Baltimore neighborhoods since 1973 and has held positions as a community organizer in several different capacities. He served as Deputy Commissioner of Housing and Community Development for the City of Baltimore and Assistant Secretary of Housing for the State of Maryland, and led the effort to write the Empowerment Zone application. In his last position he worked with the Baltimore Station, a residential program for homeless men who are primarily

veterans of the Armed Services. A lifelong resident of Baltimore, he currently lives in the Lauraville neighborhood. Email: michael@southwestpartnershipbaltimore.org

Wendy Shaia, EdD, MSW is Executive Director of the Social Work Community Outreach Service (SWCOS) at University of Maryland School of Social Work. Dr. Shaia is a graduate of the University of Maryland School of Social Work and obtained her Doctor of Education in Human and Organizational Learning from The George Washington University. She has more than 20 years of experience developing, implementing, and leading organizations and programs. In New York, she developed and operated a shelter for homeless pregnant and parenting young women in Bedford Stuyvesant, Brooklyn, and built transitional and affordable housing in East New York, Brooklyn. She provided technical assistance to community organizations for the Enterprise Foundation, and conducted the summative evaluation of the Red Cross' long-term recovery effort after hurricanes Katrina, Rita and Wilma. Most recently, Dr. Shaia worked as a strategic planner for the Department of Defense, where she led change management efforts, and developed strategies around Equal Employment Opportunity and Diversity. She is passionate about issues related to poverty, social justice and oppression. Dr. Shaia practices mindfulness meditation, and is a mindfulness facilitator with the Center for Mindful Awareness. Email: wshaia@ssw.umaryland.edu

Phyllis Sharps, PhD, RN, FAAN is the Elsie M. Lawler Endowed Chair, Professor of Nursing and Associate Dean for Community Programs at the Johns Hopkins University School of Nursing. Dr. Sharps leads, directs and coordinates community programs. She is the director of three community health nurse led centers and the comprehensive school health program for the Henderson Hopkins School and the Weinberg Early Childhood Center in East Baltimore. She has published more than 80 articles on improving the reproductive health and reducing violence among African American women, including the physical and mental health consequences of violence against pregnant and parenting women, infants and very young children. She has been the principal investigator for 2 NIH funded grants, Domestic Violence Enhanced Home Visitation – DOVE, a public health nurse intervention to reduce violence against pregnant women. She is Fellow of the American Academy of Nursing and a member of the International Nurse Researcher Hall of Fame, Sigma Theta Tau International Nursing Honor Society. Dr. Sharps received her doctoral degree in nursing and completed a fellowship in adolescent medicine at the University of Maryland Schools of Nursing and Medicine, and a master's in maternal child health nursing from the University of Delaware. Email: psharps1@jhu.edu

Diane Marie St. George, PhD is Assistant Professor and Director of the MPH Program at the University of Maryland School of Medicine. Her research interests focus on the health of populations who suffer a disproportionate burden of disease by virtue of race/ethnicity, socioeconomic status, place of residence, immigrant status and other social factors that place them at a societal disadvantage. Dr. St. George earned a BS in Psychology, a BS in Zoology and an MA in Health Education from the University of Maryland College Park, and a PhD in Epidemiology from the University of North Carolina Chapel Hill School of Public Health. She completed a Fogarty-funded post-doctoral fellowship at the Institute for Preventive and Clinical Medicine in Slovakia and a Kellogg-funded post-doctoral fellowship in community-based participatory research at the University of North Carolina School of Public Health. Email: dstgeorg@epi.umaryland.edu

Adam Taylor, MPH is the Executive Director of Global to Local, a non-profit based outside of Seattle that is implementing global health strategies in local underserved communities. Adam has been with the organization since its inception in 2010 and is responsible for the agency's overall strategic direction. Adam previously worked as a Project Manager for the Grameen Technology Center on the Ugandan-based Community Knowledge Worker project, which leverages the power of mobile phones to help small-holder farmers access important information such as market prices. From 2005-2007, Adam served as Program Manager for Catholic Relief Services in Madagascar where he worked across several sectors including maternal and child health, disaster prevention and response, social safety net, agricultural marketing, and more. Adam graduated from the University of Washington, Evans School of Public Affairs with a Masters of Public Administration. Email: adam.taylor@kingcounty.gov

Toyin Tofade, PharmD, MS, BCPS, CPCC is Assistant Dean of the Experiential Learning Program and Associate Professor in the Department of Pharmacy Practice and Science at the University of Maryland School of Pharmacy. For more than three years since she began at UMB, Dr. Tofade has facilitated the growth and development of clinical track programs in health care organizations in the state and international student rotation opportunities. She actively participates in the strategic planning leadership team for her department and serves on the curriculum and assessment committees for the school. From 2002-2011, Dr. Tofade worked at the Wake Area Health Education Center in North Carolina, where she served as Director of Pharmacotherapy Services and Clinical Associate Professor at the University of North Carolina Eshelman

School of Pharmacy in the Division of Pharmacy Practice and Experiential Education. She actively serves as a member of national pharmacy organizations (AACP Experiential Education, continuing education, global and SIGs, ACCP and ASHP) and several state organizations. Dr. Tofade received her Master's degree in Pharmacy Practice and a Doctor of Pharmacy degree from the University of North Carolina at Chapel Hill. She completed a residency with emphasis on clinical pharmacokinetics and an American Society of Health-System Pharmacy-accredited residency at UNC hospitals. She is currently Co-Chair of the Accreditation Council for Pharmacy Education Continuing Professional Development Steering Committee. She is also President of a non-profit organization, Global Women Leaders, Inc., which trains women in interested nations to maximize their leadership potential. Email: ttofade@rx.umaryland.edu

Ashley Valis, MSW is Executive Director of Strategic Initiatives and Community Engagement at University of Maryland Baltimore's Office of Community Engagement (OCE). Focusing on communities in West Baltimore that border the UMB campus, OCE develops and nurtures University-wide partnerships with external stakeholders, including K-12 public schools, community organizations, nonprofits, and local businesses. Ms. Valis previously served in the office of Governor Martin O'Malley from 2007 to 2014, most recently serving as Assistant Chief of Staff. In this role, she oversaw the Departments of Environment, Natural Resources, Planning, and Agriculture, helping to manage major policy initiatives within the agencies, and ensuring the Governor's priorities within each agency are achieved. Prior to this role, Ms. Valis served as Deputy Director of the Governor's Intergovernmental Affairs Office, serving as Governor O'Malley's direct liaison with local elected officials from the state's 157 incorporated cities and towns, the 23 counties, and the advocacy organizations that work with these jurisdictions in Maryland. In addition, Ms. Valis served as Director of Strategic Partnerships for Governor O'Malley, coordinating community and volunteer activities statewide and advising the Governor on policies to enhance and improve community and philanthropic partnerships. She is a graduate of University of Delaware where she received her Bachelor of Science degree in Family and Community Services. Additionally, Ms. Valis holds a Masters of Social Work degree from the University of Maryland Baltimore. Email: avalis@umaryland.edu

Clemencia Vargas, DDS, PhD is Associate Professor at the University of Maryland School of Dentistry in the Department of Orthodontics and Pediatric Dentistry, and a 2015 UMB CBEL Faculty Fellow. Dr. Vargas holds degrees in dentistry, epidemiology, and medical sociology. Dr. Vargas' research focuses on socio-economic inequalities in oral health, an area in which she has published numerous scientific articles. She has strong interest in oral health improvement at the community level. She is the faculty advisor for several dental student groups that emphasize community service and currently leads the oral health aspects of two community-school based funded programs. She was a member of the Institute of Medicine committee that wrote the report, *Advancing Oral Health in America*. Email: cvargas@umaryland.edu

Madeline Yates, MA is Founding Executive Director of the Maryland-DC Campus Compact (MDCCC), a non-profit membership association of public, private, 2- and 4-year colleges and universities. MDCCC provides leadership to colleges and universities in Maryland and Washington, DC by advocating, supporting, and encouraging institutional participation in academic and co-curricular based public service and civic engagement programs. MDCCC strengthens the capacity of member institutions to enhance student learning and to meaningfully engage with communities. Ms. Yates has twenty-five years of experience in cross-cultural programming and service-learning, both K-12 and higher education. She has traveled extensively—living, working, and volunteering for extended periods of time in Japan, Haiti, the Philippines, Nicaragua, and New Zealand. While teaching and working at the Maryland State Department of Education, she received several fellowships, including two Fullbrights to India and South Africa, and others to Kyrgyzstan and Ecuador. She has consulted domestically and internationally. She received her BA from Gettysburg and MA from Hood College. Email: yates@mdccc.org
